

INCOME TAX TORN
FROM END TO ENDIMPORTANT DECISION SAID TO
BE READY.

A Special Dispatch From Washington to a Chicago Paper Makes The Statement That the Supreme Court Has Come to a Conclusion on the Subject.

Chicago, April 6.—A special dispatch from Washington to the Tribune says: "The United States Supreme court has shot the income tax law full of holes. The decision has been completed and put in type, and only awaits formal ratification at the consultation to be held at noon to-day."

"The decision of the lower court is reversed, but the income tax as whole is upheld, but only by a divided court."

"Two important portions of the law, however, have been decided to be unconstitutional, and they are so serious as to affect materially not only the revenues of the government, but the estimation in which the income tax will be held by the people."

"Under the decision to be handed down by the court probably next Monday, but possibly later, all incomes derived from rents are exempted from taxation by the Federal government and all incomes derived from state and municipal bonds are similarly exempted. In other respects the income tax law stands as it was passed last August, but the result of the consultations in the Supreme court shows very conclusively that the law can easily be picked to pieces piecemeal, provided suits are brought to contest each particular point as it comes up."

"The landlords of the country will pay no income tax. The owners of bonds of almost any kind, either federal, state, county, or municipal, will also be free, while the business man, the manufacturer and the salaried employee will, for the present, at least, be compelled to contribute to the treasury of the United States government 2 per cent of all incomes in excess of \$4,000 per annum."

"There is a possibility in regard to the income tax law which may render it unnecessary for the next congress to repeal it. The eight judges who have decided or rather failed to decide the present case on its merits are evenly divided. Justice Jackson is ill and unable to be present. He may recover sufficiently to sit when some new case is brought in the near future, or the court may be brought up to the full number of nine justices by the appointment of his successor, in which case it is possible the law may yet be declared unconstitutional in toto."

"As it stands today, however, the Supreme court is split in two on the income tax, and the decision of the courts below stands on the broad constitutional question involved, with the two exceptions of the incomes from rents and those from state and municipal bonds."

"It was evident from the start that the justices as a whole were perfectly willing to exempt local securities if the case had been brought up as a separate issue before them, but during the first consultations this matter was held in abeyance, and it was not until the final session that it was decided to include this exemption in the decision and relieve the owners of all state, county, and municipal bonds from paying income tax on the interest they received therefrom."

"Justice Brown was very strongly opposed to the taxing of income derived from rents on real estate. He took the position that in law a tax on rent was in every way equivalent to a tax on real estate, and hence it was clearly a direct tax, and accordingly in violation of the provisions of the constitution, which forbids congress to levy any direct taxes unless they be apportioned among the states on the basis of population at the last preceding census."

"On this proposition as to the constitutionality of the law in so far as it related to rents derived from real estate the chief justice and Justices Field, Gray, and Brewer, who believed that the whole law was unconstitutional, voted with Justice Brown, thus deciding this particular portion of the law unconstitutional by a vote of 5 to 3."

"The opinion states specifically that the decision of the court below in the cases of Charles Pollock against the Farmers' Loan and Trust company, of Louis H. Hyde against the Continental Trust company, and of John G. Moore against the commissioners of internal revenue, is reversed, and then goes on to state that the trust companies are restrained from paying any income tax on revenues received from the rents of real estate or from interest paid on state and municipal bonds of all descriptions."

"The fact is also stated that the Supreme court is evenly divided on the question of the constitutionality of the income tax, and hence that that portion of the decision of the court below is neither affirmed nor reversed."

"How much this decision of the Supreme court will mean to the treasury officials no one can estimate. It will, of course, entirely upset Secretary Carlisle's estimates as to the financial situation between now and the day congress meets, but there is enough of the law left in all probability to keep the treasury running until December. That the next congress will endeavor to correct it there can hardly be any doubt, and the absolute repeal of the law seems almost inevitable."

Woman Suffragists Win in Utah.

Salt Lake City, Utah, April 6.—The woman suffrage article, which was passed to third reading by the constitutional convention several days ago, came up again yesterday on a motion to recommit, with instructions to present the question to the people in a different article. The motion was lost, 42 to 52, and a vote to adopt the article was then carried, 75 to 14, and it now goes to the committee on revision. Unless the opposition can muster votes enough to have this action reconsidered woman suffrage in Utah may be considered an accomplished fact.

"ANTI-CATHOLIC" BILL DEAD.

Thought to Have Been Effectually Disposed of by the House.

Springfield, Ill., April 6.—Soon after the house convened yesterday Mr. Jones of Iroquois, from the committee on revenue, reported Mr. Merriam's "anti-Catholic" bill. Mr. Thiemann moved that it be recommitted to the committee on education. This, it is thought, effectually disposes of the bill. After advancing a large number of bills to third reading, the house adjourned to 5 o'clock Monday evening.

In the senate, Mr. Fisher introduced a bill providing for the taxation of dining and sleeping cars operated and used in this state and not owned by the corporations operating them. The bill is intended to compel payment of taxes by corporations outside of this state which operate on roads in Illinois. A schedule is provided for, which shall show the number of sleeping and dining cars owned outside the state and not owned by the railroads operating them that are used during each month of the year and the number of miles each month the cars have been run, and the total number of miles the cars have been in and out of the state. The state board of equalization shall assess for taxation the average number of cars coming within the provisions of the bill, and the assessed value of the cars shall bear the same proportion to the entire value that the annual monthly average of miles that such cars have been run or operated within the state shall bear to the annual monthly average of the number of miles that such cars have been used or operated within and without the state. The bill does not apply to cars operated and owned within the state.

The Crawford bill allowing the organization of pawnbroker societies came up as the pending question on second reading. Senators Wall, Green, Humphrey and others opposed the measure, the former moving a postponement for one week. Mr. Green said that as he construed the bill it would allow pawnbrokers' trusts in large cities, and permit them to organize subsidiaries. The motion to postpone carried by a vote of 17 yeas to 10 nays.

The bill allowing boards of education to establish kindergarten schools and the Bogardus train robbing measure were advanced to third reading. Senator Littler asked consent to have his revenue bill made a special order for next Thursday. Objections were offered by Senators Humphreys and Campbell of Hamilton. Mr. Littler then moved a suspension of the rules. No quorum was manifest on the question, and the senate adjourned until 5 o'clock Monday on motion of Senator Crawford.

BIG STEALS AT CARSON.

The Mint Is Relieved of \$22,000 at One Time.

Carson, Nev., April 6.—Superintendent Mason of the government assay office in New York has been in full charge of the mint scandal investigation here for two weeks. He has discovered shortages that approximate \$90,000, and all the suspected melts have not yet been examined. The greatest steal yet discovered in one melt was unearthed by Superintendent Mason a few days ago. He found that one run or melt which purported to contain 2,200 ounces, half gold, half silver, had but forty ounces of gold. The shortage on this fraudulent melt, therefore, was about \$22,000. It is known that the frauds extend over a period of five or six years.

Freight Wreck on the Alton.

Alton, Ill., April 6.—A fearful wreck occurred yesterday at Wood river bridge, on the Chicago and Alton cut-off, about half a mile north of East Alton. A long, heavy, freight train was coming down the grade when the middle of the train bulged out and fifteen cars were piled on top of each other. Four men were killed outright and two fatally injured. None of them are known, but are supposed to be tramps who were stealing a ride. The injured men were brought to the hospital in this city. The wreck was caused by the train being too heavily loaded behind, and when the brakes were put on the front cars the weight behind was thrown onto a flatcar in the middle of the train, crushing it to atoms and wrecking the other cars.

Taylor Jury Is Discharged.

Carrollton, Mo., April 6.—The jury in the Taylor case came into court at 9:30 o'clock yesterday and reported that the members could not agree. The jury, which stood seven for conviction and five against, was then discharged. As the jurors filed out of the courtroom they were hissed, hooted at and reviled by the people who had gathered about the courthouse. It is the general opinion here that Carroll county has been disgraced by the five jurors who stood out for acquittal.

Strikers Use Dynamite.

Pomeroy, Ohio, April 6.—An attempt was made at Minersville early yesterday to blow up the family boat of John Forbes, a miner imported to take the place of striking miners. The boat was badly shattered, but no lives were lost. Fourteen men have taken the place of old miners in Williams' mine and serious trouble is feared. Forbes fired on the dynamiters, but they escaped. There was a woman and two children in the wrecked boat. The situation is desperate in Minersville.

TRADE PICKING UP
R. J. DUN & CO. SAY

MORE INCOURAGING CONDITIONS REPORTED.

Both the Retail and Wholesale Departments Show An Advance—Cotton Manufacturers Continue to Gain—Wool In Brisk Request—Copper Is Firm With Good Demand.

New York, April 6.—R. G. Dun & Co.'s Weekly Review of Trade says:

"Returns showing the condition of retail trade in March throughout the country and the distribution of goods of final comparison with the same month in 1894 and 1893 give gratifying evidence that in most trades and districts marked improvement over 1894 is realized, though on the whole trade is smaller than in 1893."

"Everywhere, also, the occurrence of Easter in March last year, but in April this year, is found to account for much difference in the volume of retail trade in quantities of goods sold. It is nevertheless larger than last year, but on the whole smaller than in 1893. The main difference in comparison with 1893 is found in the general decline of prices, which makes trade in value smaller even where it is clearly as large or larger in quantity."

"Accounts from the chief centers of wholesale trade are also encouraging this week. There is not only hopeful spirit but real gain in business, though not equally distributed geographically or as to branches of trade."

"The best news from industries is that labor troubles have been settled or avoided, Mahoning iron and eastern woolen mills being again active. Next in importance is the better demand for manufactured articles, which gives great reason to hope that recent advances from the bottom may prove successful. Following the rise in coke there have been this week sales of 2,000,000 tons lake ore at about 15 cents advance and finished products are no longer inactive, Bessemer iron rising to \$10.65, gray forge to \$9.25, common bar to 95 cents, structural angles to \$1.05, and plates to \$1 per ton."

"Chicago shares in the rise and the Illinois Steel company has achieved a notable success in taking the contract for steel plates for ship-yards at Newport News. Eastern works gain more slowly notwithstanding the low price of anthracite coal. The production of Connellsville coke for the week is 168,101 tons, the largest on record, but there is some fear that higher coke and ore must close the works."

"Copper is firmer, as sales of the stock taken from the French syndicate removed a load off the market for the last six years and tin has been stronger with tin plates because of purchases for Pacific coast canners."

"The cotton manufacture once stimulated by the rise in raw cotton goes on gaining, though cotton has halted. A better demand appears for many qualities and in some slight advances in price. Sales of wool reflect the renewed confidence of manufacturers, as strikes are out of the way, for 6,675,100 pounds were sold last week, against 4,648,260 last year. No rise in prices is seen or expected in view of heavy sales and receipts of foreign wool."

Extra Session Possible.

Lincoln, Neb., April 6.—Technically the legislature adjourned at noon yesterday. When the hour of noon arrived Senator Stewart moved that as the fixed time for adjournment had arrived the senate do adjourn. The motion was defeated. This action is believed to mean that the governor may refuse to recognize anything done after the hour mentioned, and that the motion was made for that purpose. Should the governor take this course an extra session would become a necessity, as appropriation bills had not passed at that hour.

Lansing, Mich., April 6.—The house yesterday fixed a special order date for consideration of the senate joint resolution providing an educational qualification for electors. ENDS IN A TRAGEDY.

Frank Colvin Kills Himself the Day He Was to Marry.

His body was shipped back to his home at Randolph, Iowa, last night for burial. He blew his brains out in the afternoon at the Omaha residence of Barnard McCann.

A pathetic story surrounds the affair, in which Miss Kate E. Early, a well-known young lady of Columbus, Neb., figures. From the pocket of the dead man's coat was taken a letter addressed to the press, in which he explained that he had come to this city in the hope of persuading Miss Early to consummate their engagement of many months. He had suddenly become acquainted with the fact that she was already married, and he had arranged to commit suicide. To this story Miss Early replies she was merely Colvin's friend, never had promised to marry him, and denies she is a married woman.

Fort Worth Bank Closes Its Doors.

Fort Worth, Texas, April 6.—The City National bank of this city failed to open its doors yesterday. Deposits amount to \$487,000; bills rediscounted, \$49,000; assets, \$35,000 above liabilities to depositors. The bank held \$110,000 of city funds, \$113,000 of Tarrant county funds, and the deposit of the Endowment Bank, Knights of Pythias.

VAUGHN IS ELECTED.

Chicagoan President of the Republican College League.

Grand Rapids, Mich., April 6.—The election of president of the American Republican College league was the most exciting episode of the day in its convention, and L. D. Vaughn of the University of Chicago, won. The convention assembled at 10 o'clock in the morning in the handsome club house of the St. Cecilia society. Congressman William Alden Smith eloquently welcomed the young men to the city, to which President Cox briefly responded. Committees were appointed and the rest of the morning session was occupied with speeches. In the afternoon the committee on credentials reported forty-six colleges represented, and then the rules were suspended to decide on the next place of meeting and to elect officers. Minneapolis won the next convention with scarcely a struggle. After the election of president the other officers were quickly chosen as follows: Vice-presidents, Ralph E. Johnston, Nebraska, and C. E. Cosand, Earlham; secretary, F. Ledebourough, Michigan; treasurer, L. L. Twitchell, Minnesota; member national league executive committee, W. D. McWilliams, Kalamazoo; national league vice-president, J. Hubbard Frye, Princeton.

The platform reaffirms belief in the principles of the republican party, maintains the right, the justice, and the economic wisdom of the American doctrine of protection, favors bimetallism and believes in the use of both gold and silver as moneys of ultimate redemption, and that they should be placed upon a parity with complete interconvertibility under such legislative provisions as shall make the purchasing or debt-paying power of any dollar coined or issued by the United States the absolute equivalent of that of any other dollar so coined or issued. The platform also favors uncompromising enforcement of the Monroe doctrine against any foreign interference with American affairs, and declares for the annexation of Hawaii and the construction of the Nicaragua canal under government supervision and control.

A motion to insert a 16 to 1 free silver plank in the platform was made, but was cut off by a call for the vote on the adoption of the report as presented by the committee on resolutions.

The bimetallic league presented a showing of reports received from different sections of the country, which it is said was gratifying to the conferees. Mr. Sibley is understood to have been exceedingly sanguine of the outlook for the silver party in the Keystone state and spoke enthusiastically of the prospects of many recruits.

The dead man was brought to Hennessy and has been identified as Dick Yeager, alias Gyp Wyatt, on whose head there is an aggregate of over \$5,000, including the \$1,000 offered yesterday by the Rock Island. He was identified as one of the Dover robbers by the entire train crew, and Conductor Mack says he was the leader. In his possession was found the sack which the porter was compelled to hold while the passengers deposited their valuables in it.

About 2 o'clock a tremendous explosion occurred. Both the saloon and the grocery store were shattered into fragments and collapsed upon the inmates. The deed is laid at the door of the Mafia organization, but the police refuse to believe this, and think the explosion an accident.

The Royal Arthur will await further instructions from the British admiralty before proceeding to Nicaragua."

Fighting began at once, the insurgents holding their ground with great tenacity. The Spanish guerrillas, under command of Capt. Vaguero, finally charged upon and dispersed the insurgents, who lost twenty killed and many wounded. The Spaniards lost one lieutenant killed and one sergeant wounded. A saddle belonging to Amador Guerra was found after engagement, and it is supposed he is wounded. He was seen to fall from his horse during the fight. Guerra repeatedly cried: 'Arriba al machete. Viva Cuba.' Lieut.-Col. Arazo has been highly eulogized for his bravery and that of his troops."

Blizzard in Nebraska.

Omaha, Neb., April 6.—A general storm prevailed yesterday in Nebraska. In some localities it is a violent dust storm, in which the air was so filled with fine particles of sand and dust that the sun was obscured. In other localities the dust has given place to rain, and it is blown by a severe gale. In the northwestern part of the state the storm has become a howling blizzard, with great quantities of snow. Cattle on the ranges will suffer severely.

THREE BALL GAMES ABOUT THE LIMIT.

THE PROSPECTS FOR THE GAME ARE DULL.

Nearly All the Local Men Have Signed Contracts—Auroras Will Play Here April 19, 20 and 21—Where the Players Go—Y. M. C. A. Organize a Cycling Club.

Janesville will not see many base ball games this season, despite the fact that the Bower City has turned out more good players than any town of its size in the country, and last year supported a team that won every game they played during the season except three. For some time past the local enthusiasts have been trying to work up a club but without any great measure of success. All the local crack players have signed contracts for the season's work and will get larger salaries than Janesville could pay, although they would probably have stayed here at more reasonable figures had a club been organized. However, three good games will be played here on the 19th, 20th and 21st of this month, between the old Athletics and the Aurora team of the Western League. Janesville will have all her best players in this game, for it will be their last appearance before their departure. The game will be played at Athletic Park, and follow the opening of the season by a game between the Auroras and the Rockfords at that city April 16.

Local men go to about all the points of the compass after this series is finished. "Joe" Can'tillon, the former Janesville man, will be the manager of the Dubuque nine, and he has engaged John Schlicker the well known pitcher and Thomas Morrissey the expert first baseman for that team, both to play in their old positions. M. F. Birmingham who played first base with the Athletics and always put up an errorless game, has been engaged by the Nashua, New Hampshire team, while George Wilbur the crack third baseman, and one of the best of all around men, will go to Lima, Ohio. Fred Dixon the Athletics' splendid young catcher, has received several flattering offers but has not yet signed a contract. With all these experts leaving Janesville, it certainly does not look as if this was much of a ball town.

Y. M. C. A. WHEELMEN ORGANIZE

The First Steps Taken at a Meeting Held Last Evening.

At a special meeting of several members of the Y. M. C. A. called last evening at the association rooms, it was unanimously decided that a cycling club in connection with and under the influence of the local association would be profitable and economical, because of the rooms being so nicely adapted for the meetings of the club and their friends. After carefully considering the needs of, and benefits to be derived by such a club, a committee of three consisting of F. F. Lewis, A. E. Matherson, and W. A. Rothermel, were appointed to arrange a constitution and by-laws and to report to a meeting to be held Friday night, April 12, for the permanent organization and election of officers.

The following persons will constitute the membership at present. A. E. Matherson, S. M. Smith, F. F. Lewis, W. A. Rothermel, M. L. Rothermel, Louis E. Morris, H. H. Dickinson, Will Bronson, Bert Lewis, Walter Rice, Seldon Moseley, Mark McNamara, Roy Sanborn, Ryland Billings, Arthur H. Wood and Roy Stewart.

ARROW CYCLING CLUB MEETING.

TOBACCO TRADE IS NOT HEAVY.

The Bulk of the Transaction Has Been in New Leaf.

"There has not been as much riding in the country by tobacco dealers of late" says the Edgerton Reporter, as during the pleasant weather in March. "The bulk of the transactions recently is in new leaf, some of the heavy firms contracting liberally. The aim thus far is to secure choice selections and for this purpose most of the growing sections have been pretty thoroughly hunted over. A fair proportion of very good leaf has been found and bought at reasonable figures, considering the quality of the goods. The trade in old leaf has been neglected somewhat of late while the movement of new is being pushed."

"Packers complain of remarkably dull trade in all the varieties of cured leaf, and no important transactions are reported. An occasional lot is secured from first hands."

"The growers are well along in their work of assorting and packing, it being generally admitted that only a small portion of the crop will be lifted in the bundle."

Sales are reported as follows:

J. L. Bear, 7 acres, '94, at 5 1/2 and 1 cent per bundle.

A. C. Sharpe, 10 acres at 4 1/2 and 1 cent, assorted.

I. L. Lund, 6 acres at 6, 4 and 1 cent, bundle.

CROWS ARE EXPENSIVE BIRDS

Lafayette Supervisors May Have to Pay Large Sums—State News.

THE action of the Lafayette county board in offering a bounty of 20 cents each for crow heads is liable to cost the members who voted the bounty and possibly the officers who signed the orders, considerable trouble and expense. Many tax payers are not willing to pay 20 cents apiece for all the crows in America that may visit that section of the earth, and it is stated that during the coming summer action will be commenced against the individual members of the county board who voted the bounty to compel them to convey back into the treasury the money paid for crow heads. If the bounty were stopped at once, each member could get off at an expense of \$30 to \$40, but if it continues a few months longer there's no telling how great the tax may be.

A False Diagnosis.

La Grippe is confounded by many persons with a severe attack of catarrh, which in some respects resembles the former. These individuals suffer severely with pain about the forehead, eyes and ears, with soreness in throat and stoppage of the nasal passages, and in fact are incapacitated for work of any kind for days at a time. These are catarrhal sufferers. Ely's Cream Balm has been used with the best results in such cases. The remedy will give instant relief.

DUEL TO THE DEATH FOUGHT ON A FARM

BULL AND HORSE MET IN MOR- TAL COMBAT.

Equine Was Almost Torn to Pieces and Died a Few Minutes After it Was Found—Bovine Was Not Seriously Injured and Stood Shaking His Bloody Horns Defiantly.

A duel to the death was fought on the farm of J. T. Boynton, at Emerald Grove, yesterday, in which a bull and a horse were the combatants. The horse was worsted in the battle, and the bull was found shaking his bloody horns while the horse breathed its last.

Mr. Boynton turned a number of horses and cattle into the same pasture, and among them were the two animals in question. The bull was not considered to be at all ugly, and there was no thought of danger in turning the stock into the same field. The residents of the farm house heard no unusual sound during the night, but when morning came, a sorry sight met their gaze. Some time during the night the bull and horse had come together, and the bovine was found covered with blood, from head to foot, and showing other signs of battle. Then the horse was found lying on the ground almost completely gored to pieces. Great rents had been torn in his body by the sharp horns of the bull, from one of which its lungs protruded. Through another gash its intestines could be seen, but despite its terrible injuries the animal was still alive. A telephone message was at once sent to Dr. E. D. Roberts and he hastened to Emerald Grove, but got there just as the horse gave a gasp and died. The horse was valued at \$200 as it was a particularly fine animal. The bull was scarcely injured at all.

The tall creature's red nose might have been the result of tight lacing, but that is another story.

"After all," she was musing, "if we win a name it lasts but a day."

Glorious red hair fell in a golden flood over the shoulders which the short, stout vision shrugged, but that is likewise an extraneous narrative.

"Yes," the latter rejoined. "There seems to be no such thing as permanency about marriage."

A Logical Inebriate.

"Are you drunk?"

Clever Reasoning.

There is a very clever small girl in England who reasons out a great many things for herself, and who cannot be deceived, as many other small girls are, by things that are told them "for fun."

Having been told by one of her aunts that the moon was made of green cheese, she immediately sought out her grandfather, to whom she said:

"Aunt J— says the moon's made of green cheese, but I don't believe it."

"And why not?" asked her grandfather.

"Because I've been readin' in the Bible, and it proves the moon ain't made of green cheese, because the moon was made before the cows was."

An Appropriate Anthem.

Cawker—The quartette at our church has a rare appreciation of the fitness of things.

WORKS BOTH WAYS.

"It is remarkable how your trip abroad has improved you."

"It is the use of the Carlsbad Waters that has improved me, more than my trip abroad. I have gained in flesh and strength since I used them. Many persons use them for reducing flesh, because the waters remove all unhealthy tissues and superabundance of fat, but they also build up firm and solid flesh, which is a sign of perfect health. I also use the Carlsbad Sprudel Salt early in the morning with a glass full of water. It increases the laxative action of the same. If you ever suffer from chronic catarrh of the stomach, biliousness, gout or rheumatism, I advise you to use them. Every druggist has them." CHURCH GOING.

It is estimated that fully two-thirds of the population of Janesville seldom if ever attend church. If you should ask these people why they neglect the church, but few of them would be able to give a satisfactory answer. They all believe that the church is a good thing in the community and would fight for its maintenance if necessary. Yet they are willing to drift along, and let the minority furnish the attendance and support.

The Gazette is not a religious journal, neither is it the organ of any particular church, but the paper firmly believes in good morals and good government, and recognizes the fact that back of morality is the great christian world, solidly founded on an organization known as the church. All the good that any man possesses, whether he recognizes the fact or not, is due to the influence that emanates from some church or from some life in touch with the church. This statement will not be questioned by any man or woman, who gives the matter any thought.

Granting the truth of this statement the individual who ignores the church is guilty of ingratitude and gross negligence.

There is another side of the question that effects the life of every young man or woman of the coming generation and has much to do with the development of character.

The young man who is sought for in the business world, is seldom selected from the ranks of boys who spend their Sabbaths with rod or gun or desecrate the day on the ball ground or at the beer garden. The young lady who finds the best home as a rule, is not selected from the class who spend the day in lounging or sleeping off the excesses of the week's pleasure.

The young man or young woman who ignore the church fails to recognize the foundation stone of true character. There is only one place on earth more sacred than the church and that is the home, and back of every good home is the influence of some church. The two are inseparable.

If this thought could be impressed upon the minds of the young people, every church in the city would be crowded. If the young men of the city who line our streets every Sunday night could realize that their chances in life, five years hence, would be infinitely better with the association of some church as a pastime, there would not be churches enough in the city to accommodate the crowd, and yet this statement is absolutely true. Talk with any young man, who realized in any degree the responsibilities of life, and he will tell you of his hopes and ambitions for the future, he expects to amount to something in the world, just as much as he expects to live.

Talk with him about the church of his mother, and he will tell you it is a good thing, and ought to be supported. Talk with him about personal responsibility, and he will say that he can be good enough without the church, and life is too short to waste any time in the sacred place. This is a grave mistake. The church is a safeguard that no young man can afford to ignore. It has brought to many men stability of character and success in life that but for its influence would have been moral and physical wrecks.

The Gazette urges church attendance first from the low plane of good policy, and on the ground that no man can afford to neglect it.

The higher plane of spiritual welfare is discussed from every pulpit, every Sunday. That the long life beyond is more important than the fleeting life of today is recognized by a thoughtful people. The church is the day school of preparation for correct living here, and a life of happiness hereafter.

BENEATH A BURDEN OF SORROW

Mrs. Rachel Russ.

Mrs. Rachel Russ, widow of Herman Russ, died at the home of her daughter, Mrs. William E. Eller, 162 Linn street, this morning, aged seventy-two years. Mrs. Russ came to Janesville with her husband in 1853, and this city has been her home since that time. Her husband died sixteen years ago. Seven children survive: Mrs. John Duthie, of Miller, South Dakota; H. A. Russ, Madison, Wis.; George Russ; Mrs. R. A. Brown, McCook, Neb.; Mrs. G. L. Harris, Texas; Mrs. F. H. Davies and Mrs. William E. Eller, of this city. Besides her children a large circle of acquaintances and friends will mourn her death. Devoted almost wholly to her home work, she was an exemplary christian lady, and never tired in her efforts to do good for others. The funeral will be held at 2:30 o'clock Monday afternoon.

Miss Elizabeth Martin.

Miss Elizabeth Martin died at 10 o'clock this morning at the home of her aunt, Mrs. Maggie Conroy, 252 Center street. Miss Martin was twenty-five years old today, this being her birthday anniversary. She had been sick only a short time. Miss Martin had resided in Janesville about ten years, and for some time was employed as a dining room girl in the Park and Grand hotels, and was a young lady highly respected by all who knew her. She leaves one brother and three sisters—Mrs. S. L. Thompson, Mrs. G. Jackson, William Martin of Albany, Wis., and Mrs. James Blake of Detroit, Michigan. The funeral will be held from St. Patrick's church at 10 o'clock on Monday morning.

Frankie Hagoney.

Frankie Hagoney, son of Mr. and Mrs. James Hagoney, South Franklin street, died this afternoon, aged three years and six months. The funeral will be held on Monday.

The object of the local board in dismissing the proceedings is to give the state board an opportunity to deal with Mrs. Beard under the state law.

What Was the "Vinegar" Bible?

Very trifling blunders have sometimes been enough to make an issue of the bible famous. The issue of the "Vinegar" bible is a case in point. In 1717 a printer named J. Baskett printed a large folio bible in two volumes. In the head line of the twentieth chapter of the gospel according to Saint Luke the word "Vinegar" appeared in mistake for "Vineyard," and the phrase ran, "The Parable of the Vinegar." It is odd that the error occurs in another edition also issued by Baskett about the same date.

SUNDAY PAPER WAR IS NOW AT AN END

C. F. CRONK GIVES UP THE FIGHT IN JANESVILLE.

St. Paul Paper Train Which Has Been Run For His Special Benefit Has Been Abandoned and Local Dealers Get Their Supplies Direct From the Newspaper Offices.

There will be no race from Chicago to Janesville between rival paper trains tomorrow, and there will be no rival youngsters hustling for trade. Riley D. Cronk, the Peoria middleman, who has been running a fast train in opposition to the new C. & N. W. flyer, has given up the fight and left the field to H. S. Haggart and King & Skelly.

The Sunday "paper train" on the St. Paul road has been supplying Janesville people with their "Herald," "Tribune," and "Oceans" for a long time, the local dealers buying their papers from Mr. Cronk, because they could not be gotten here on time in any other way. Cronk developed a large and paying business in this vicinity and all went well until he raised the price to the local dealers and made it necessary for them to sell the papers for six cents each. That arrangement suited neither dealers or customers, and Mr. Haggart and King & Skelly began correspondence with the newspaper companies direct. Other dealers also took up the scheme, and the "Chicago and Elroy Postoffice" on the Chicago & Northwestern road was the result.

The train reached Janesville several hours ahead of the Cronk train and resulted in a big loss of trade for Mr. Cronk. The Peoria hustler did not stand around idle very long however, and he did not relish the fact that his business was going to the dogs. He at once made arrangements for a special, too, and then races for Janesville were watched with interest. Janesville dealers refused to buy of him, however, and he adopted new tactics. Local boys were hired to sell his papers and the competition grew keen. Mr. Haggart furnished his boys with badges that they might be distinguished from the opposition force, and there was great rivalry among the youngsters. However Cronk found it a losing game and in addition the local dealers protested at the Chicago offices, against allowing Cronk to infringe on their territory. The Chicago offices all disclaimed any hand in the proceedings, and claimed that they would protect their Janesville customers, so when the announcement of Cronk's surrender, and when the abandoning of the St. Paul fast freight came, they were not surprised.

CHANGES IN TIME ON THE C. & N. W.

A new train from Rockford, Belvidere and Beloit will arrive at 9:20 a. m. daily, Sunday excepted.

DR. WM. HORNE'S BIRTHDAY MARKED

Pleasant Gathering At His Park Street Home This Afternoon.

Dr. William Horne's friends helped to celebrate his seventy-fourth birthday anniversary this afternoon at his home on Park street. Dinner was served at two o'clock and the occasion will be remembered by those present. The doctor first came from Southampton, England, to Canada and from there to Janesville where he has resided for thirty-eight years.

An Inexcusable Error.

In yesterday's paper as well as today's, there is an article headed "Train Robbery." It unfortunately was signed Smith's Pharmacy, when it should have been Stevens' Pharmacy. It is Charlie Stevens who sells De Witt's Little Early Risers, and we don't much blame a person for "holding a train" up in order to get them if they can't get otherwise.

F. F. Pierson, the Taxidermist To Fix Up a Monstrality.

A monstrality is on exhibition at F. F. Pierson's North Main street gun shop. It was a calf with two heads, in almost perfect development and brought to Mr. Pierson to be mounted. The two heads were perfect in shape, and were attached together on a regular line about one inch back of the eye, thus showing four perfect eyes, two ears, and two mouths. The calf weighed about seventy pounds, and was dark red in color, while a little white star marked the upper face of head. The neck was of normal size immediately back of the head. The calf belonged to Charles Rossiter of Orford.

Mr. and Mrs. Kenyon Will Retire and Run a Boarding House.

The European Hotel, near the depot, will soon be under new management. F. W. Ruch, who is a son-in-law of Mr. and Mrs. Kenyon, will run it. Mr. and Mrs. Kenyon have been in the hotel business in Janesville for the past eleven years, and are only retiring now on account of the poor health of Mrs. Kenyon. They have rented the Dr. Coffee house on South Main street, and will run a first class boarding house. Mrs. Kenyon's past reputation is a sufficient guarantee that it will be a success in every way.

Misrepresentation.

Every concern that had an exhibit at the World's Fair went away claiming that they were awarded first premiums. This is not only true of World's Fair exhibitors, but it's true of people who had exhibits of buggies at our local fair, and we wish to say that some such claims are absolutely false, as the records will show that in the past two years the Wisconsin Carriage Top Co. have made exhibits, they have taken first premiums for the best top buggy exhibited and also extension top surreys. We wore the blue ribbon away both seasons, and will as long as we make a display, as no buggy in these parts is as good as we make and we stand ready to prove it, and leave it to any number of judges.

WISCONSIN CARRIAGE TOP CO.
Train Robbery.

Last Wednesday night masked robbers boarded the limited express, just out of town on our railroad, and compelled the express messenger to give up all money and valuable packages, including a large quantity of De Witt's Little Early Risers. Armed men are now in hot pursuit of the robbers, with instructions to capture them dead or alive, but to recover the Early Risers, as a host of suffering people are depending on these little pills for relief from dyspepsia, constipation, sick headache, biliousness and the train of evils that follow in their express company. De Witt's Little Early Risers at Stevens' Pharmacy.

A Good Indication.

No practitioner in any of the professions, can year after year, do business in any locality without inspiring confidence by reason of his success or else proving that his pretensions to skill are groundless, and the best evidence that Dr. Brewer is a skillful physician, is to be found in the fact that for many years he has visited various localities in this state—and each year his reputation for success has been growing brighter. There must be merit to command such confidence. Dr. Brewer will be at the Park Hotel in this city on Monday, April 8.

A SURE CURE.

Dr. Greene's Nervura, the Best Spring Medicine
Hon. Nathaniel H. Pond Says It Helped Him
More Than All Other Medicines He Ever
Took.

MR. NATHAN H. POND.

One of Napoleon's generals, whom he had commanded to capture a certain fortress, sent back word that it was an impossibility. Instantly the great warrior returned his answer: "Tell him the order comes from a man who conquers impossibilities!" The assault was made and the fortress won.

How many people who are sick or out of order, who are run down in health and strength, and who, from repeated failures to be cured, are discouraged and hopeless, have come to believe a cure an impossibility! If such people had a single particle of the courage of the great Napoleon they would know that a cure is possible—that it is only necessary to take the right remedy to make the cure an assured fact. To take, in fact, Dr. Greene's Nervura blood and nerve remedy.

Hon. Nathaniel H. Pond, of Warwick, Mass., says in regard to himself and the remarkable curative effect of this great medicine:

"I have been afflicted with liver disease caused by malarial poisoning while in the army. For about thirty years I have suffered untold agonies and have taken a great amount of medicines. My disease has become chronic, and I do not expect ever to be entirely cured. I have taken Dr. Greene's Nervura for some time, and I can truly say that while I am using it I am quite comfortable, and some days

am able to work a good deal, and others not as much.

"But Dr. Greene's Nervura blood and nerve remedy has helped me more than any other, or all the rest of medicines I have taken.

"I cannot speak in too high praise of Dr. Greene's Nervura blood and nerve remedy, and I have used sixteen bottles."

Do not be a nerveless, hesitating, aimless weakling, despairing of a cure from your weakness and disease, but be strong of mind and indomitable of courage—courage to make yourself strong and vigorous again by using the great health restorer. Dr. Greene's Nervura blood and nerve remedy. Remember that a resolute determination and the use of this remedy will make you well. It should be used at this season by all means, for it is the best spring medicine.

It is not a patent medicine, but the prescription of the most successful living specialist in curing nervous and chronic diseases. Dr. Greene, of 35 West 14th St., New York city. He has the largest practice in the world, and this grand medical discovery is the result of his vast experience. The great reputation of Dr. Greene is a guarantee that his medicine will cure and the fact that he can be consulted by any one at any time, free of charge, personally or by letter, gives absolute assurance of the beneficial action of this wonderful medicine.

ABOUT QUEEN VICTORIA.

Three Stories That Are Interesting Concerning England's Sovereign.

For many years after her husband's death Queen Victoria would never consent to be photographed, save in very lugubrious trim and with the prince consort's bust or portrait well in sight. Much livelier now that she is much older, her majesty to-day sits for artists, and some of her favorite jewels and lace have thus become well known to the public. The severely criticised ornaments bedecking the sovereign's head and chest on the jubilee coinage may be recognized as studies from actual jewels much beloved by her majesty. Sir Edgar Boehm had a hard time of it with outsiders when those coins were first issued, but he was amply compensated by eulogiums falling from royal and imperial lips upon the charming way he had rendered that favorite necklace, brooch, and earrings.

The queen's money from the state is all paid up in advance to the 31st of the month, and so are all the annuities that are granted to the prince of Wales and the other members of the royal family, and Countess, the bankers, are the only persons who know how the royal accounts stand. The \$36,000 a year allowed for the children of the prince of Wales remains at the same amount as it was before the death of the duke of Clarence, and this money will continue to be paid till six months after her majesty's demise.

On each anniversary—or the annual celebration of the queen's wedding—the beautiful painting of the marriage of her majesty is brought into the dining room and decorated with white silk rosettes. In this painting the queen's mother and the beautiful duchess of Sutherland, mistress of the robes, show to great advantage. The curtains also appear near the queen's shoulder, held at the "carry" by a state officer (the curtain or curtain is the pointless sword of King Edward the Confessor, considered an emblematic sign of mercy), and in the left hand background of the picture are two large burning tapers on the altar of the Chapel Royal, St. James, which were blown out by the archbishops of Canterbury and York immediately after the ceremony. These candles are still preserved, and will not be lighted again until required for a sacred ceremony, which, we trust, will not take place until all the young society people of to-day are bald-headed and have to wear wigs.

FARMERS IN CUBA.

Nearly All but the Owners of Great Estates Are Abjectly Poor.

Between the condition of the planter and that of all other agriculturists whatever in Cuba the widest difference

exists. The laborer has nothing, never has had anything and is happy in the knowledge that he never will have anything. The small farmer, the owner of a few acres, is the most abjectly poverty stricken son of the soil that I have ever met. He lives in the poorest habitation known to civilized man, a hut made of the bark of the palm tree. Beside it the adobe dwelling of the Mexican is a palace. It has one room, a dirt floor, neither window nor chimney; in this the family live like cattle, subsisting upon the poorest of food, as most that the soil produces must go to pay the taxes. Children run about, guiltless of the knowledge of clothes until 6 or 8 years old. Books, education, the world, are things of which they have never even dreamed. It is true that there is an intermediate group. Between these people and the planters is a small contingent of thrifty farmers. Here and there through the country may be seen a stone dwelling with red tile roof that marks the home of one who by some rare enterprise has become possessed of enough land to engage in cattle raising or fruit growing. But the prosperous, forehanded, middle-class farmer is conspicuous by his absence, says James Knapp Reeve in Lippincott's Magazine. It is because there is no such middle class, and because the country people are either the owners of great estates or else abjectly poor, that it is a mistake to speak of Cuba as a rich country. It cannot be so while the present conditions exist. But with such a combination of soil and climate as she possesses, the island is capable of great things. Money and enterprise are needed for the development of its resources, and these are not likely to be forthcoming while the present social and political conditions remain. If the islands were open to American enterprise as freely as our own territory is, a decade would suffice for the working of great changes.

He Paid the Bills.

Mrs. D'Avnoo—What are you groaning about now, I should like to know.

Mr. D'Avnoo—The bills for your last reception are just coming in.

Mrs. D'Avnoo—Well, I will pay those bills with my own money if you will relieve me of the duty of listening to the chatter of people who come to make party calls. There's the bell now. Go to the parlor.

Mr. D'Avnoo—Um—I'll pay 'em, my dear.

J. A. Richardson of Jefferson City Mo., Chief Enrolling force writes: 38th general assembly of Missouri, I wish to testify to the merits of One Minute Cough Cure. When other so-called cures failed, I obtained almost instant relief and a speedy cure by the use of One Minute Cough Cure. C. B. Stevens.

BABY CONTEST OPEN BALLOTS IN DEMAND

MUCH INTEREST IS SHOWN IN THE CONTEST.

Five Shares of Stock in the Rock County Building Loan and Savings Association Will be Given the Winner June 1—Value at Maturity Is \$500 and It Is Non Assessable.

The polls for The Gazette contest for the babies is now open and the ballot will be found at the close of this article and will run until June 1, when the contest will close. Much interest is centered in The Gazette's offer to present the baby who gets the highest number of votes with \$500 worth of stock in the Rock County Building Loan and Savings Association. It is a prize worth getting, for naturally it will be worth just half a thousand dollars. That will be a nice nest egg if kept at interest after maturity until the child becomes old enough to want to use it.

It will buy an education. It will buy a building lot. It will buy a piano and the lessons necessary to play upon it.

It is more than many people are able to save in a life time.

Of course all the mothers and fathers want it for their babe. How to get it is told below:

The polls opened this morning and will remain open until June 1. The baby that receives the most ballots in that time will receive a certificate calling for these five shares of stock. There are no dues to be paid, no assessments to be met, no installments to provide for. The stock stands for \$500 in cash and on its maturity, which will be in nine and one-third years, the money will be ready. The prize is a handsome one—it is well worth winning and the conditions of the ballot are as follows:

From March 1 until June 1, a coupon will be printed in each issue of The Gazette.

Any one, anywhere in any state is entitled to vote as often as they buy a copy of The Janesville Gazette containing the above ballot.

Out the ballot out (trimming on the dotted lines.) Write in the name of your candidate and enclose same in an envelope addressed to Ballot Editor, Gazette, Janesville, Wis.

Only one person can be voted for on one ballot.

The baby who receives the largest number of votes will receive five shares of stock in the Rock County Building & Savings Association, cash value, \$500 at maturity.

The contest will close June 1 at 9 p. m., and the stock will be delivered as soon as the count of votes is completed.

Any non-subscriber who will subscribe for The Gazette and pay in advance will be entitled to the following number of ballots:

New subscriber paid in advance one month, 100 votes.

New subscriber paid in advance two months, 350 votes.

New subscriber paid in advance six months, 900 votes.

New subscriber paid in advance one year, 2,000 votes.

Each new subscriber who pays in advance and casts the number of votes specified is also entitled, of course, to cut coupons from the paper from day to day and vote in the regular manner.

No person will be allowed extra votes for stopping his paper and having it sent to another name at the same address.

In every instance they must be bona fide new subscribers.

No person will be allowed to stop his paper on Monday and start it again Tuesday and claim the premium offered.

No votes can be transferred from one candidate to another after being registered in this office.

Candidates must not be more than three years of age March 1, 1895, and must live in Janesville.

THE BALLOT.

The Publishers of "The Janesville Gazette" will give 5 Shares of stock in the Rock County Building, Loan & Savings Association to the Baby who receives the largest number of ballots.

The Stronghold of Health

Is soon carried by the assaults of malaria, but if H. Stetter's Stomach Bitters is employed as a bulwark against the disease, absolute safety is attained. The most virulent forms of disease bred by miasma, tainted air and water, soon yield to the creative and combative influence of this efficient safeguard, which fortifies the system as no other medicine up to date has ever done. It counteracts a tendency to rheumatism, neuralgia and kidney complaints, overcomes indigestion, nervousness, constipation and liver troubles, improves the appetite and promotes digestion. Taking for all in all, it is probably the most useful family remedy in existence and is popular as well as effective. Use it systematically, not at irregular intervals.

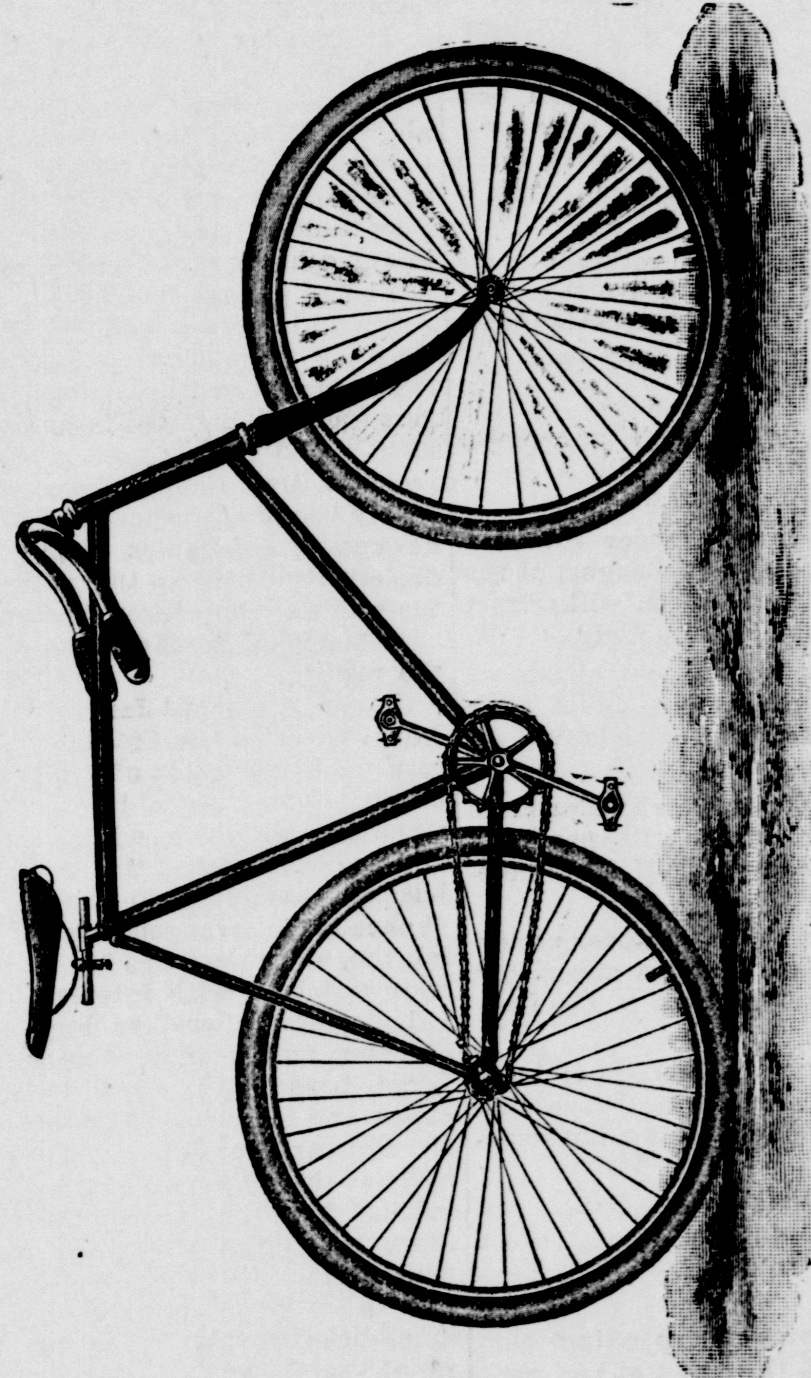

If the Baby is Cutting Teeth,

Be sure and use that old and well tried remedy, Mrs. Winslow's Soothing Syrup for children teething. It soothes the child, softens the gums, always all pain, cures wind, colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

PARISIAN NOTES.

Vivid Silk Plais Brighten Dark Gowns.
When to Wear Gloves.

In Paris it is considered proper for a man to wear gloves at balls and on most other social occasions. At the theater he holds them in his hand for greater convenience in applauding, but they are considered the regular accompaniment of the hat, and wherever that is carried gloves must accompany it.

A woman must wear gloves everywhere, socially speaking, except at the table, and it is quite correct in these days of long gloves for her to slip off the hand of the glove and wrap it around her wrist without leaving the table.

EVENING GOWN.

On removing the portion which covers the arm. The glove is replaced at dessert before leaving the table.

Parisian society has instituted a reform, and now most balls, supper included, are over by 2 o'clock. The custom of giving favors to the guests is also being abandoned as being in questionable taste, and now only flowers are presented—boutonnieres to men and bouquets to ladies.

Silk plaids in the brightest colors are a feature of some of the most fashionable spring toilets in Paris. It is used for the sleeves and trimming and is usually combined with plain dark goods. One noticeable gown of navy blue serge has a skirt slashed from waist to hem, the slashings showing an underskirt of yellow plaid silk. The bodice is similarly slashed from collar to belt, and the elaborately draped sleeves are entirely of plaid silk.

One of the latest French skirts flares exceedingly at the hem, but has all the fullness at the top concentrated in a group of plaits at the back of the waist, retained by a large buckle.

The evening gown of which a sketch is given is made of white satin and has an entirely plain skirt. The back of the bodice is close fitting, but the front shows a blouse effect. The belt is of straw colored satin ribbon and has long bows and ends at the right side. Flat loops of the same ribbon fall from the front edge of the square décolletage and from the shoulder over the balloon sleeves.

JUDIC CHOLLET.

MODES OF THE SEASON.

The Latest Sleeves Are Mounted on a Close Epaulet.

The modes of this season will not vary much from those of two years past. There has been an exaggeration of all the characteristics in these two years of course. Sleeves have grown larger, skirts more flaring about the foot and shoulders more sloping, but the essential features have continued the same and will do so for the present.

The latest regulation regarding sleeves demands that they shall be not smaller by a hairbreadth, but set lower down in order to show the curve where the arm joins the shoulder. This is achieved by mounting them on a close epaulet—a

SPRING STREET COSTUME.

much better idea than that of 40 years ago, when drooping shoulders were last in fashion, of cutting the bodice abnormally long on the shoulder, thus causing an unsightly bagginess around the armhole. However, with either epaulet or long shoulder seam, women are condemned to put on the hat before the gown, as it is impossible to lift the hands to the top of the head. The high shoulders of late years have rather spoiled us for this restraint, but we shall doubtless soon grow accustomed to it.

These drooping shouldered gowns, however, although unmistakable indications of the tendency of fashion, are by no means in the majority as yet, most of the spring sleeves being gathered as usual at the armhole. The sleeves themselves, however set, are fuller than of old.

Evening skirts continue to grow fuller around the foot, although there is not much increase in those intended for day wear.

There are seen some tentative efforts toward Louis Seize corsets, but these are only experimental, as the change from present styles would be too abrupt to be compassed at a blow.

An illustration is given of a spring street costume composed of mauve cloth and black cloth. The skirt is mauve, closing at the left side of the front with covered buttons and finished with stitching. The short black corsege is gathered at the waist behind under a buttoned strap, while the crossed front opens over a small mauve plastron. The plain mauve sleeves are covered with a full pelerine sleeve in black. The flaring collar is lined with white, while the black portions of the costume are trimmed with metal galloon.

The Most Successful Specialist In All

Nervous, Private and Chronic Diseases of Men and Women.

Dr. Sharp has for 20 years made a Special Study and Practice of these Maladies which have proved such stumbling blocks to the medical profession. More failures are recorded in these three lines of practice than in all the 1000 remain in diseases to which the human race is subject.

The doctor's success is phenomenal in his chosen field.

He Absolutely Cures 98 per cent of the cases he accepts for treatment.

This high percentage is in part due to his rejection of all incurable ones. So there are no experiments and but few failures.

YOUNG MEN troubled with results of younger indiscretions can be safely and surely cured. I know it.

MIDDLE-AGED MEN can have a new lease of vitality.

OLD MEN can take a new hold on life and its joys.

WOMEN can find not only relief but positive cure for their many annoying and dangerous ailments.

Leucorrhoea, Painful Menstruation Delayed or Obstructed, Menstrual Periods, Headaches, Ovarian Inflammation, Etc.

FREE TREATMENT.

For one week, commencing Thursday, April 4, Dr. Sharp will give free treatment to all patients till they are cured.

FOR SALE

A Model Milling Plant.

The recent death of the owner makes the sale of this plant necessary. It consists of a flouring mill, packing-storage house and two elevators. The mill is 6x66 feet, four stories and basement constructed of stone, brick and frame, the frame part being iron-clad. Capacity 200 barrels per day. The storage-packing house is 30x120 feet two stories. The elevators each have a capacity of 30,000 and 50,000 bushels. A branch railway track runs between the mill and packing-storage house. This plant was ALL remodeled and made new in 1891. The business of this plant has paid the owner, up to his death, from \$5,000 to \$50,000 per year. This plant cost over \$80,000 and is the finest one in the northwest. It is run by water power and situated in Janesville, Wis. except the large elevator which is at Lake Preston, S. D. There is no encumbrance and it will be sold upon easy terms or can be exchanged for first-class real estate.

“Envy is blind and knows nothing except to depreciate the excellence of others.”

“Who dares not speak his free thoughts is a slave.”

Why Are They Boycotted?

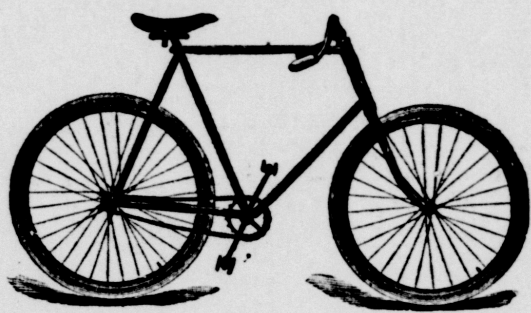

BECAUSE: They are too popular.
BECAUSE: The demand for the Waverley is too great and they are afraid to put their own goods along side of it,

BECAUSE: The superior excellence of this wheel would knock them out of huundreds of good sales.

BECAUSE: We have the unheard of audacity to announce the facts concerning the grade of our wheels in plain English.

BECAUSE The Waverley is too good for the money---and many other reasons.

Isn't it rather strange that the great “Sell my goods and none other,” was at times ready to yield a point and permit his agents to take on any other line but the Waverley? What does it signify? That the Waverly is the best wheel? Certainly! No other meaning can or will be accepted by the agents and their friends. Didn't the mechanical expert, sent by the Chicago Times, select the Waverley as the highest grade wheel in the Chicago Show? Didn't the dealers testify to its merits in actions that spoke louder than words, by keeping the Waverley booth crowded from 9 o'clock Monday morning till 11 o'clock Saturday night? Did not The Waverley People book more contracts than any other exhibitor in the Chicago Show?

Stop and consider three things, dear reader.

1st—The only bicycle that is actually boycotted by the exclusive contract deal, is the Waverley.

2d—The Waverley was picked out from among the 1,500 bicycles on exhibition as being the highest grade machine in the Chicago Show, by a mechanical expert in the employ of one of the great Chicago Daily Newspapers.

3d—That twice as many dealers visited The Waverley booth as any other in the Chicago Show and that they booked twice as many orders as any other concern represented.

What does it all mean?

That the Waverley is the Highest of All High Grades. For Sale by
